CLOUD SOFA

The Cloud sofa, designed by Sanja Knezović hails from a family of modular sofas, offering a number of compositions. Its morphology is defined by the simple basic lines of a somewhat lower armchair and an elevated armrest. Support from the cold foam reinforces its entire volume, while the superficial layer of feather filling adds extra softness to the Cloud and ultimately a feeling of "sitting on the clouds". Cloud's dimensions go hand-in-hand with the needs of diverse groups of users, who can choose between two different widths of the module. Cloud is available in a large range of Prostoria's collection of high quality fabrics and leathers. Sitting height 40cm, sitting depth 65cm, armrest height 70/53cm.
