CONFLUENCE TABLE

Experimentation on metal, which has always characterised Xavier Lust's work, encounters Pianca's made in Italy craftsmanship, giving life to a fluid and organic structure. With a fluid movement, the steel legs of the Confluence table converge, supporting the top, which seems to levitate. The myriad of finishings allows the table to adapt to different styles. Winner of the MUUUZ International Award 2014 and NYC Design Awards 2016.
