DOMENICA BED

The Domenica Bed by Simone Bonanni for Pianca is an organic design, delicate shapes that offer a warm and reassuring embrace. The bed's profile is born from one single flowing line that includes the generous headboard, which is welcoming and enveloping. The visible zip, which runs along all the edges, is both a functional element and distinctive detail. The metal base adds lightness to the entire structure, giving the illusion that the bed is floating in space in the version with feet. The tall bed frame version includes the option of including the storage box, combining comfort and elegance.
