NAAN ARMCHAIR

Naan designed by Federica Biasi is a compact armchair with embracing volume and soft, gentle contours. The structure develops from a square base with rounded corners into one single block form, projecting it into the space, with no interruption, creating an inviting volume. Slim, tapered armrests and backrest enclose a generous seat. The absence of voids gives the armchair a precise, elegant look of balanced form and geometry, both visible and invisible. The Naan armchair is also available as a swivel chair.

CATEGORY

Occasional Chairs
