

collective

The sharp design of the Norma sideboard lends an elegant and refined appeal. The continuity of its surfaces is one of its key features: the whole structure is wrapped in a continuous slim panel, producing a rich monolithic look; the decision to banish handles in favour of the elegant push-to-open system adds to this effect. Made of engineered wood panels, with the option of a drawer, hinged or flap opening, complemented by internal clear glass shelves, optional LED internal lighting and mirrored back, the Norma sideboard offers an elegant storage solution. Wall mounted, with hidden feet or slim metal legs, Norma is available in a collection of finishes including high gloss and matt lacquered colours, wood, glass, mirrored or slate or finishes.
