OLTRE MIRROR

Oltre plays with layering, with the idea of repetition, going beyond, featuring overlapping shapes that are similar in geometry but differ in their proportions. Soft edges, accentuated curves, which heighten the boldness of the design, pursue the harmony of the parts and of the whole. The basic structure is a mirror supported by a black wooden rear panel. The piece is the sum of a dialogue between three mirrors: sylvan, smoky and lead metalized. It comes in two sizes, both generous and designed to emphasize its sculptural quality.
