PIL-LOW SOFA BED

The Pil-low sofa bed designed by Neisako is based on a specific relationship between seat, back and pillow in which pillow takes on dual functionality. At sofa position the pillow improves seating ergonomics, in bed position it expands the sleeping area width. An innovative tilting mechanism was designed to enable easy one hand sofa bed transformation. The form of the sofa has been designed as a complete spatial object and functions equally well freestanding or standing next to the wall. Pil-low is available in a selection of high quality fabrics and the stitching detail on the sofa matches the selection of the metal finish.. As a sofa bed the dimensions are 200 x 155cm. Seat height is 45cm.
