PIUMOTTO BED

The Piumotto bed designed by Andrea Castrignano is characterised by its luxurious headboard that can be covered in leather or fabric. The headboard includes feather down, to enhance the feeling of soft large pillows. Queen and King size beds are available. Both size beds come with a loose slat base and the option to add a storage base. Available in Pianca's wide range of fabrics and leathers. Fabric covers are removable. [expander_maker id="1" more="Read more" less="Read less"] An entire symphony of coziness, Andrea Castrignano's design for the Piumotto Bed entices one to partake in a cloud-like dream state. The voluminous curves that make up the platform and the headboard are made possible by the generous padding and feather filling inside. The back cushion, which stands at one meter from the base of the bed, provides a comfortable support to the back and head while the rectangular platform lends a sense of formality to the ensemble. The upholstery in fabric, or natural or synthetic leather, and detailed with subtle stitching around the edges and in the seams, completes the luxurious appeal of this piece. The cosy warmth of a cloud for a night's rest: generous, wraparound volumes suggest total relaxation. Harmoniously punctuated by a vertical rhythm, the Piumotto bed's proportions express themselves to the utmost degree in the headboard that embraces the entire height of the bed frame. And not just for sleeping, the large feather-filled headboard can be used to lean, read, and think. The Piumotto bed from Pianca is part of their large collection of designer beds that are distinguished by exceptional quality and design. Made in Italy and designed by the best names in design, our collection of luxury beds is available in a wide range of high-quality finishes [/expander_maker]
