## PLATEA ARMCHAIR

Inviting, elegant and bold: Platea is a modern interpretation of the traditional bergère. Emilio Nanni harmoniously balances its parts by putting the emphasis on the height and width of the backrest while keeping its thickness moderate. The design creates a solid, formal impact through a synthesis that develops the dynamic relationship between straight and curved lines. Thanks to its padding featuring different comfort zones, the wide seat ensures excellent support. The upholstery cover stands out for its blanket stitching and is available in all the leathers and fabrics of the Pianca collection, including manmade leathers. The base is made up of a tubular structure that follows the contours of the armchair and finishes up on eclectic brass shoes. It is definitely a distinguishing element and is available in all the metal finishes and matt lacquers of the range. Thee perfect bedroom or living room armchair, Platea is also available with an optional pouf. connotative seams around the outer edges.
