

collective

Understated style, inviting contours, softly combined. Rada is a bed with a flowing, intimate and delicate profile. The headboard curves backwards gently, inviting total relaxation, yielding to its form. The bed appears to derive from a single pen-stroke, its curves flowing seamlessly into metal feet, in a supremely delicate yet natural contrast of materials. A metal frame combines with an aluminium alloy base, with a metallic or matt finish, in black and white. The headboard, available in two different heights, is made of polyurethane foam with a fixed fabric or leather cover.
