SEAM SOFA

Designed by Böttcher & Kayser , Seam is characterised by a unifying line which draws the sofa's shape. The visible seams of the sofa are comparable to leaf veins and define its organic structure. The straight outside outlines come in and beautifully contradict the softness of the padded seat, armrests and backrest. The thin feet, made of a square section bended bar follow on from the seams, bringing lightness to the design. Seam is available in two, three or modular configurations and in Prostoria's large selection of fabrics as well as powdercoat colour options for the base. Seat height is 40cm and seat depth is 62cm.
