SHRIMP ARMCHAIR

Designed by Jehs & Laub, the Shrimp armchair's elegance results from flat cushions and a bentwood shell which has a particularly fine appearance thanks to its side recesses. But it's when you sit down that you really experience Shrimp for what it is: an easy chair where you don't sink in, but can relax while perfectly supported. The ergonomically shaped seat shell of Shrimp is made of reinforced bentwood veneered in oak or walnut or lacquered and with a high or low backrest. Inside it can be covered with fabric or leather. In 2011, Shrimp won the the Interior Innovation Award at imm cologne.
