

collective

Strain and Unstrain chairs are like twins in the Strain collection but convey their own typology. Their difference lies in the key family feature of inter-twisting leg junctions. While Strain retains the twist, which provides the necessary construction stiffness, Unstrain releases it, resulting in the contemporary interpretation of the 1950's universal chair, which is easily stackable. Sitting height 45cm.

CATEGORY: Stools
Material: Wood
2 years

BRAND: Strain
Designer: Gorasi, Piperčič
NO TOOLS REQUIRED
