TRIFIDAE ARMCHAIR

Trifidae collection are a family of seats consisting of different armchairs - the easy chair, conference chair, armchair and the enclosing lounge chair share the same triangulated form with the focal point in the central part, embracing the user's lumbar area and functioning as an armrest. Application of the enclosing backrest provides an introverted, expressive chair, protecting its user from surrounding, while the use of the slim, high backrest ends up in an open, extrovert personality and usage of the chair. The chair can be customised by the selection of a wooden or metal base as well as Prostoria's large collection of fabrics and leathers. Seat Height 40cm.
