TRIO SOFA

Designed by Team Form AG, the Trio sofa comprises three simple elements: seating element, back-rest and corner-rest, which offer an almost endless range of combinations - in just a few moves. Trio's basic building block is one metre long and one metre deep, and all the other elements conform to this. It is actually quite a simple building block system - but one which is incredibly soft and comfortable, thanks to the high-quality materials, elaborate workmanship and intelligent internal construction, which also includes a proper slatted frame. Trio is designed for people who prefer simple solutions, versatile and practical but not conventional and is available in a range of fabrics. Click [here](#) to view the Trio sofa in action.
