UP-LIFT SOFA BED

Designed by Neisako, Up-lift represents innovation in sofa bed design. Its transformation through the simple lift (UP) of the back rest, which automatically lifts (LIFT) the bottom part of the bed, while maintaining an optimal height.

Seat height is 44cm and seat depth is 62cm.

Up-lift won the Interior Innovation Award; German Design Council 2014..

STRAIN ARMCHAIR

Despite its visual lightness, Strain provides comfort expected from large dimension sofas thanks to the seat with elastic bands support, stretched backrest shell and free lumbar cushion which further eases various sitting possibilities. The seat cushion and the backrest shell tailored from a two dimensional plate are put on a complex metal structure, and the form is obtained by stretching from the top of the structure to the bottom of the seat.

OSMO OUTDOOR ARMCHAIR

Osmo is a lounge chair developed on the classic typology of chairs for terraces of hotels and restaurants. The steel structure combined with wooden seat and backrest provides an optimal equilibrium of comfort and rigidity required in demanding context of extensive use in exterior exposed to sun and seawater. A bent tube structure of expressive geometry defines the frame in which the seat and backrest made of wooden slates are inserted into.

CIRCLE OF LIGHT

A Sun or a Star? The Circle of Light pendant creates a daring statement if hung alone and blends in perfectly if contextualised.

Made from fibreglass, the Circle of Light perfectly complements commercial as well as residential venues – able to oversee open spaces and be accentuated by them too.
